Allowable Subject Matter

1. Claims 1-17 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 6, 7, and 12, Kii et al. (6,630,870) discloses a millimeter wave transmitting/receiving apparatus, comprising: a pulse modulator, parallel plate conductors (fig.24), a circulator (93) having two ferrite plates disposed opposite each other in inner surfaces of the parallel plate conductors, a pulse modulation switch (94) constructed from a Schottky barrier diode, wherein the pulse modulation mounted on the other end face of one of the suppressors (91)(fig. 26).

Sato (6,034,574) discloses a modulator constructing from a diode which mounted on the other end face of one of the suppressor, wherein the diode connected at an intermediate point along a supply line formed on a dielectric wiring substrate, coincides with a direction of electric field of the LSM mode (figs.3-4).

The admitted prior art of the application discloses a pulse modulator connected at the other end of one of the suppressor, wherein the pulse modulator includes a Schottky diode (figs. 9A-B).

These references fail to teach or suggest a distance from an edge of each of the ferrite plates to the Schottky barrier diode is set approximately equal to $(n)(\lambda)/2$, where the λ is the wavelength, n is an integer.

Regarding claims 2-5, 8-11, 13-17, these claims are allowed as being dependent upon independent claims that have been allowed.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Simon Nguyen whose telephone number is (571) 272-7894. The examiner can normally be reached on Monday-Friday from 7:00 AM to 4:00PM.
